REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The primary reasons for allowance for claims 1-15 is that applicant's claimed invention includes a printer having a window of the cover body that is elongated in the main scanning direction with an edge having curved ends and a length greater than the width of the recording sheet. It is this limitation, expressed in the claimed combination not found, taught or suggested in the prior art, that makes these claims allowable over the prior art.

The primary reasons for allowance for claims 16 and 18-20 is that applicant's claimed invention includes a printer having a metal frame, a window opening that is elongated in a main scanning direction with an edge having curved ends, a recess adjacent one end, the rear wall of the metal frame, and a projected portion extending from proximate the front wall to overhang the fixing of the at least one ink tube and at least one FPC to the frame. It is this limitation, expressed in the claimed combination not found, taught or suggested in the prior art, that makes these claims allowable over the prior art.

The examiner makes of record that the previous specification and claim objections dated 23 December 2004 are withdrawn in view of applicant's remarks.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2853

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
